

Dear FCC,

I am engaged in inter-state transportation and in addition to providing enjoyable listening, XM Radio has become a useful tool by broadcasting up to date traffic reports for many of the urban areas that I service.

Recently, I have been made aware of a Bill which will be introduced to the House of Representatives (H.R. 4026) which, if passed, would prohibit XM Radio from broadcasting this traffic reporting service. I am strongly opposed to this legislation! In my opinion, ANY legislation of this type, if allowed to pass, would be a breach of the First Amendment to the Constitution of the United States and to our system of free enterprise.

Sincerely,

Gaulke

John F.
